from **71,19 EUR**

Item no.: 362827
shipping weight: 0.50 kg
Manufacturer: Carrera

Product Description

The Carrera DIGITAL 132 Porsche Kremer 935 K3 "No. 54" is the miniature version of the legendary racing car with which Klaus Ludwig won the DRM championship in 1979. The innovative Porsche model also won the one-make world championship four years in a row, making the Porsche 935 one of the most successful production-based racing cars in history. The original car had a record-breaking 680 hp and was driven by racing legend Klaus Ludwig, affectionately known as "King Ludwig" by his fans. He is still regarded as the most successful touring car driver in Germany today. The Porsche is absolutely true to detail and will win you over in light blue. The slot car also has front, rear and brake lights, which will light up even the darkest corner of your racetrack. The Carrera car can also be individually coded and digitally controlled, offering real driving fun.
