📄 Product Description

AppConnect Connection between DIGITAL racetrack and smartphone/tabletWith Carrera App Connect you have all the data at a glance! Do you want to track your lap times in the race? How many tenths are you missing on the better placed driver? How long did the race take? You can find all this information in real time on your smartphone thanks to App Connect in conjunction with the app. Of course, riders can also be pre-set and given names, so all your friends have their own profile in the app. The connection is very simple via Bluetooth. Easily make vehicle settingsNot only is all the data clearly available, but settings can also be made easily. Whether fuel level, braking behaviour or speed - all configurations can be changed via the app. You can also select different race modes, whether lap count or time - you have a wide range of options here.ATTENTION:The Carrera AppConnect requires the PC Unit/lap counter to be connected to the Control Unit. This means that you cannot use the Carrera lap counter at the same time. CAUTION:Not suitable for children under 36 months. Choking hazard due to small parts that can be swallowed. Caution: Risk of crushing due to function. Keep the packaging as it contains important information.
