Product Description

A legendary carThe BMW M1 was used in the 1986 German Racing Championship. The car is perfect for the race track, but the road-going version also went down in history as "Germany's fastest sports car". Starting number 76 was part of a long series of successes in the BMW M1 series, and stood out from the crowd above all due to its unusual design. At the start with the BMW M1Will the BMW M1 Procar "MK-Motorsport, No 151" DRM 1986 also make it onto the podium at home? Visually, the 1:32 scale Carrera car is in no way inferior to its big role model. Every little detail has been considered in the design of the slot car and, thanks to the original BMW licence, has been implemented perfectly. Equipped with front, rear and brake lights, the slot car leaves nothing to be desired. It can also be individually coded and thus completely customised to suit personal driving skills.

- BMW M1 Procar "MK-Motorsport, No 151"- DIGITAL 132- Front and rear lights with brake light- Original BMW licence- 1:32 scale- 8 years and over
