from **19,93 EUR**

Item no.: 364184  
shipping weight: 0.10 kg  
Manufacturer: Carrera

### Product Description

Mercedes makes a significant contribution to safety on the world's major racetracks. The brand has been providing safety cars and medical cars for Formula 1 since 1996. In critical situations, a safety car is deployed and then leads the racing cars at a safe speed. The average speed in such situations is still over 200 km/h so that the tyres and brakes of the cars do not cool down too much and the engine does not overheat due to the lack of airstream. It goes without saying that a safety car should not be missing on the racetrack at home either. After all, the action here is almost as hot as in the world's most famous races. Thanks to the original licences from DTM and Mercedes, every little detail has been thought of in the 1:43 scale Mercedes-AMG GT slot car.

Details- Scale: 1:43- Age recommendation: From 6 years- Technical details- Original licences from DTM and Mercedes- Dimensions: 10.6 x 4.63 x 3.5 cm- Compatible with- Carrera GO!!!- Carrera GO!!! Plus- Scope of delivery- 1 x Mercedes Safety Car in the DTM
