from **6,48 EUR**

Item no.: 363969
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

Explore new heights with the new battery! If you notice that your quadcopter is no longer performing as well as it did at the beginning, it may be time for a new battery. This lithium-polymer battery operates at 3.7 V. You should know and observe this voltage rating when choosing the right charger. The unit milliampere hours (mAh) indicates the amount of charge that can flow through the device in one hour. This is 380 mA for this rechargeable battery. When disposing of your old Li-Polymer battery, look out for the yellow boxes specially set up for this purpose. You can find these in electrical or DIY stores. Please do not dispose of your old battery with household waste. The disposal centres of the local waste disposal companies also offer professional disposal. Your CRC X1 (503001) drone and RC Video One (503003) quadcopter will be delighted with the new battery. Details- Replacement battery Li-Io 7.4 V 700 mAh- Battery for CRC X1 (503001), RC Video ONE (503003) quadcopter- Rechargeable battery- Package contents: 1 piece- Age recommendation: 14 years and older
