Product Description

- Yoshi as an RC helicopter with Nintendo licence- Carrera RC helicopter- Flying figure: Yoshi as a helicopter- Length: 10.4 cm- From 8 years Yoshi wants to fly high Mario's faithful friend Yoshi is now also taking to the skies. The little green dinosaur has already had several adventures with the video game hero Super Mario™ and is now also exploring the world from a bird's eye view. Fun from the very first second! Delivered ready to run, you can set off on an exploration tour with Yoshi straight away. The gyro system and the coaxial rotor control ensure a stable and safe flight. Yoshi can be steplessly controlled and can make the skies unsafe with up to 16 other RC helicopters thanks to the modern 2.4 GHz technology. The 10.4 cm long dino flies for around 5 minutes, then needs a short break of around 30 minutes. The RC Heli features the original Nintendo licence. Details- Ready to run- 2.4 GHz technology- Digital Proportional- USB- Rotor diameter- Difficulty- Flight time: 5 min- Charging time: 30 min- Length: 10.4 cm- Rechargeable battery- SUPER MARIO™.
