from **2,73 EUR**

Item no.: 363972
shipping weight: 0.10 kg
Manufacturer: Carrera

Product Description

Give your drone a short time to catch its breath after the flight! When the quadcopter or helicopter comes back completely exhausted, it's time to give it a break. Preferably on the charger. This model has a USB port. It is designed for the Video NEXT drone (503006). Regardless of whether you were looking for a second charging cable or a replacement cable: Your quadcopter certainly won't say no to new energy.

- Charging cable with USB connection- For Quadcopter Video NEXT (370503006/370503018), Mario-Copter (370503007), Quadcopter Guidro (370503015), Quadcopter HD Next (370503019), Race Copter (370503022)- Package contents: 1 piece
