Product Description

Privacy, the ultimate party game is back - with hot new questions for wild speculation! Four of the players at the table regularly use sex toys, two find monogamy boring and all of them would have a chip implanted under their skin? No matter what it is, every "dark" secret comes to light in this game... But with Privacy, the name says it all: who answers remains top secret. Privacy is the mood maker for every game night and ensures hot gossip talk at the next party. How to play Privacy Refresh: - In each round, a delicate question is asked. - All players guess how many players in total will probably answer "yes" to this question. To do this, everyone secretly enters the corresponding number on their setting disc and places it face down in front of them. - In turn, each player now answers the question secretly (and honestly) by throwing a wooden block into the bag: a black block means "No", an orange block means "Yes". - After everyone has secretly thrown in a block, the bag is shaken out and the number of "Yes" answers becomes visible. - Whoever has accurately predicted the number of "Yes" answers moves their playing piece forward three spaces. Anyone who has mistyped an answer advances one space. - Very important: it is never revealed who has answered "yes" or "no". - The first player to circle the board with their game piece is the winner. Details - Dimensions: 27.3 x 18.9 x 6.5 cm - Author: Reinhard Staupe - Graphics: Oliver Freudenreich - Revised box design at a lower RRP - With 100 new, hot fan questions - Party game for lively exchanges, still with anonymous answers - Language: German Contents - 100 wooden blocks - 90 question cards - 10 game pieces - 10 setting discs - 10 screens - 1 game board - 1 cloth bag - 1 set of instructions
