Product Description

Once again, the dwarves set off in search of the coveted gold. This time, however, the gold seekers are travelling in teams - or acting entirely on their own. New path cards and action cards complicate or support the search for gold. As a result, it can happen that some doors remain closed. Whoever finds the most gold at the end wins. New characters and new obstacles make this game expansion an unforgettable experience in which up to 12 people can immerse themselves in the world of the dwarves.
