## 341 parts HC WWII /5729/ MITSUBISHI A6M2 "ZERO-SEN"

from **23,94 EUR**

Item no.: 358774  
shipping weight: 0.60 kg  
Manufacturer: COBI

### Product Description

The Mitsubishi A6M2 was one of the best fighters in the early days of the Second World War. The Navy Deck Fighter Model 0 had no official name. The number 0 represents the end of the year 2600 (according to the Japanese calendar) in which the aircraft was designed. Hence the popular term "Zero" invented by the British. The aircraft was designed in 1940 by engineer Jir? Horikoshi on behalf of the Imperial Japanese Navy. The model was constantly modified during the war.

The aircraft was characterised by high speed and manoeuvrability. These characteristics were achieved at the expense of armour, among other things. In total, about 11,000 examples of this aircraft were produced in various designs. Assembling World War II building block models is a great way to spend time and pursue a passion for history and model making. The Mitsubishi A6M2 building block set contains 347 elements and a pilot figure. The fighter plane model from COBI was created with attention to the smallest detail. The aircraft has a moving propeller and ailerons. Its rotating rubber wheels slide out of the landing gear in take-off or landing position. The cabin can be opened to put a figure of a pilot with a faithfully reproduced uniform and a print on the back at the controls! The aircraft has been covered with high-quality prints that will not rub off even with intensive use. The set also includes a special stand that makes the presentation of the model more attractive and a plate with the name of the aircraft. The block model of the Japanese fighter plane will delight young aircraft fans as well as older aviation history enthusiasts and collectors.

- 347 high quality elements
- manufactured in the EU by a company with over 20 years of tradition
- meeting the safety standards for products for children
- fully compatible with clamp blocks of other brands,
- blocks with imprints do not deform or fade during play or
- during play or when exposed to temperature,
- 100% prints, no stickers,
