Item no.: 358876  
shipping weight: 2.30 kg  
Manufacturer: COBI

### Product Description

The Opel Manta A is a classic that has gone down in automotive history forever. It is a tailor-made answer to the American Pony Cars (sports cars). The car was characterised by a body that was not only elegant but also dynamic, without unnecessary additions. The spacious interior offered room for 5 passengers and a roomy boot. The engine with a capacity of 1.9 l and 90 hp allowed a speed of 170 km / h. The popularity of the car is evidenced by almost half a million units sold in just 5 years. The phenomenon of Manta-mania was visible in the car aftermarket as well as in mass culture. The legendary Opel Manta A in the Executive Edition version is another important building block in COBI's car series! A technically advanced block set in a large 1:12 scale model is 37 cm long and looks great on a black block stand with a sign bearing the car's name. The Opel Manta A sports car was released under the original Opel brand licence. The set was designed with 2,125 elements. The model is characterised by the use of a large number of exclusively high-quality prints! We have completely dispensed with stickers. Especially for the needs of such large sets, new elements were developed that offer additional functionalities. Movable steering wheel with which we can turn the wheels, hinges for opening doors, bodywork and panelling elements. Under the tilting bonnet there is a built engine. Numerous details such as handles, lights and clocks form a coherent whole with the perfectly reproduced characteristic shape of this vehicle. The model is perfect for collectors and lovers of classic cars. Clear and intuitive instructions and building blocks packed in numbered bags ensure that the building process is smooth and satisfying. Opel is a German manufacturer of passenger cars, sports cars and vans that has left a lasting impression in the history of the automotive industry thanks to many successful models. Now, thanks to COBI building blocks, another automotive legend is returning in a unique collector's edition with a display stand and nameplate. Build it!
