Product Description

To celebrate the arrival of the new MC20 Cielo, Maserati has prepared a limited edition "PrimaSerie" consisting of only 65 examples of this super sports car! Limited edition cars are characterised by their incomparable exterior appearance and unique interior. Of particular note are the oceanic body tones inspired by the sea and the restless energy beneath the waves, captured in aquamarine. The pursuit of aerodynamic perfection has resulted in incredible supercar-like performance! The MC20 Cielo accelerates to 100 km/h in less than 3 seconds and allows you to comfortably reach speeds of over 320 km/h. This unique Spyder is only available to a select few! Fortunately, the collector's edition made from COBI components extends the circle of owners of this elite super sports car! The MC20 CIELO was released under the original licence of the Italian sports car manufacturer Maserati. The sensational 1:12 scale model is up to 39 cm long and consists of 2,312 elements. A functional, foldable roof, doors that open upwards, swivelling wheels that can be moved via a functional steering system, an engine reproduced from bricks and elements specially made for this model are just some of the special features of this set. With the help of numerous prints and carefully designed elements, important details and the interior have been reproduced. The collector's edition Executive Edition is characterised by an aquamarine body colour that is as close as possible to the limited edition Maserati Spyder! The set is complemented by a stylish display stand made of clip-on bricks, the important element of which is a sign with the name of the car, the scale of the model and the Maserati logo. You get a marvellous model that cannot be ignored! Now this modern super sports car can be yours! Thanks to clear and intuitive instructions, assembly is easy and not a problem even for less advanced builders. The brilliantly designed car is sure to delight fans of modern motoring. The sporty shape and presentation stand will not let you ignore the model, which can become a decoration of your living room, room or office. Change the position of your supercar thanks to the folding roof and swivelling wheels, open the bonnet and show off the engine, lift up the doors! You'll never get bored with this model! Express your passion with COBI bricks!
