from **30,33 EUR**

Item no.: 376439
shipping weight: 1.00 kg
Manufacturer: Feldherr

Product Description

Set of Eurobox 400 mm x 300 mm x 90 mm filled with 1 grid foam insert. The set consists of:- 1 piece grid foam insert 360 mm x 260 mm x 40 mm (DDMENJ040)- 1 piece foam base 358 mm x 258 mm x 10 mm (DEMENL010)- 1 piece studded foam 338 mm x 238 mm x 20 mm (DFNP020)- 1 piece Auer Packaging Euro container case with hinged lid ED 43/75 HG (DDMENJ040) 1 piece Auer Packaging Euro container case with hinged lid ED 43/75 HG (DDEB070). Thanks to the pre-perforated grid, the foam can be customised to fit most shapes. It is therefore ideal as protection for the transport of various industrial goods, such as medical equipment, individual tool parts or technical devices. The grid foam is perforated with a grid of 15 mm x 15 mm x 40 mm in height. It also has an all-round edge of 15 mm. We use a 10 mm thick base (DEMENL010) as a base, which fits exactly into the recess of the Auer Packaging boxes. The dimpled foam serves as a top cover and is cut to fit the lid of the Auer Eurobox perfectly. As the dimpled foam insert is equipped with a self-adhesive film, you do not need any additional aids. All you have to do is remove the adhesive film from the foam insert and stick the self-adhesive side into the hinged lid of the Eurobox. The entire set can therefore be designed, customised and used according to your personal requirements without any special tools. Information on grid foam DDMENJ040 :- Dimensions: 360 mm x 260 mm x 40 mm - Made in Germany- Chlorine-free and acid-free- Bulk density 23.0 kg/per cubic metre (+/- 2.0) Information on dimpled foam DFNP020:- Dimensions: 338 mm x 238 mm x 20 mm- Made in Germany- Chlorine-free and acid-free- Bulk density 23.0 kg/per cubic metre (+/- 2.0) Information Auer Packaging Euro container Case with hinged lid ED 43/75 HG (DDEB070):- Securely closed. The Euro container with hinged lid from AUER Packaging can be closed in no time at all thanks to the easy-to-use hinge system. Your goods are therefore optimally protected against transport damage and soiling.- External dimensions: 400 mm x 300 mm x 90 mm- Internal dimensions: 370 mm x 270 mm x 70 mm- Weight: 1.17 kg- Capacity: 5.2 litres
