

Item no.: 352338

59158 - My robot MC 5.0, Galileo Robotics, aged 8 and over

from 27,53 EUR

Item no.: 352338
 shipping weight: 1.10 kg
 Manufacturer: Clementoni

Product Description

A unique and original robot to assemble, with lots of fun game modes! Thanks to two infrared sensors, the new robot can avoid obstacles and follow your hand like a real bloodhound. You can use the microphone to control it by simply clapping your hands. You can use the push button on the robot's back to programme its route. The free app has two game sections: coding, to learn the principles of block-based programming, and real time, to control movements, sounds and light effects as if you were using a real remote control. Finally, you can let the robot draw with the marker holder or the magnetic holder or program it to search for small coins and paper clips. Note: The article complies with the applicable EU harmonisation legislation: Directive 2009/48/EC. For the correct and safe use of the game, follow the instructions on the box and in the manual. CAUTION. Not suitable for children under 36 months. Contains small parts that can be swallowed or inhaled. Choking hazard.
