from **13,30 EUR**

Item no.: 352343
 shipping weight: 0.70 kg
 Manufacturer: Clementoni

Product Description

Clementoni Colourful slime, experimental kit, from 8 years (DE edition).

A fantastic science lab where you can experiment with chemistry and make the most brilliant and awesome slime ever. The set includes glitter, dyes, scents and a wealth of lab tools to have great fun making slime. Possible creations include scented slime, the ultra-brilliant glitter version, "magic" slime with the colours of the rainbow and the magnificent galaxy, and pearly slime with its "galactic" beauty.

The manual explains all the stages of the experiment and guides the child in creating the slime in simple and understandable language. Safe, absolutely non-toxic and extremely pleasant. The slime can be changed and spiced up as desired.

Caution! Not suitable for children under 36 months!

- Recommended age: from 8 years
- Number of players: from 1 player
