Product Description

Clementoni Suction Robot, experimental kit, from 8 years (DE edition).

This great little robot can be assembled from scratch in a fun and easy way. Equipped with a two-axis electric motor onto which an extender is attached, this little robot can suck up small dirt particles such as dust and crumbs. Thanks to the illustrated instructions and extensive scientific information, this set is ideal for the first steps into the world of robotics. Caution! Not suitable for children under 36 months!

- Recommended age: from 8 years
- Number of players: from 1 player
