 shipping weight: 1.30 kg
 Manufacturer: Clementoni

Product Description

Clementoni The slime lab, experimental kit, from 8 years (DE edition).

To discover the surprising sides of chemistry, this comprehensive science lab has been designed to make real viscous substances. Using the mixer attached to the practical worktop, you can easily mix the basic preparation with dyes and water to make liquids with surprising textures. To make these liquids even more original and interesting, you can add glitter, beads and small pieces of rubber. Ideal and easy to carry out, these unusual mixtures are the new way to discover the secrets of chemistry in a really simple and fun way.

Caution. Not suitable for children under 36 months! Use under adult supervision.

- Recommended age: from 8 years
- Number of players: from 1 player
