Product Description

Clementoni Grow your own crystals, experimental kit, from 8 years (DE edition)

This real science lab has everything you need to make incredible crystals yourself through a fantastic chemical process! A unique set to discover the chemical reactions of salts and make lots of crystal shapes. You can even make decorative shapes yourself using the crystals you have already made. The instructions guide you through the different stages of the experiment so that you can experiment easily and in complete safety.

Caution. Not suitable for children under 36 months! Use under adult supervision.

- Recommended age: from 8 years
- Number of players: from 1 player
