from **7,89 EUR**

Item no.: 352319
shipping weight: 0.40 kg
Manufacturer: Clementoni

Product Description

Clementoni Jewellery Crystals, experimental kit, from 8 years (DE edition).

Children can create fantastic jewels and crystals with this unique research set! A well-equipped laboratory to create beautiful coloured crystals that can then be enclosed in precious gemstone and diamond settings.... The illustrated manual helps children through the different levels of experimentation as they gradually discover the secrets of chemistry and reactions with salts.

Caution! Not suitable for children under 36 months! Use under adult supervision for children aged 8 years and over.

- Recommended age: from 8 years
- Number of players: from 1 player
