Product Description

Clementoni Original brine shrimp, experimental kit, from 8 years (DE edition).

Galileo - Science & Play. Clear and simple answers to many fascinating questions. An interesting play programme for boys and girls. For all bright children with a thirst for knowledge. For understanding, experiencing and observing our environment. Here, the cause and effect of phenomena are explained scientifically.

A fantastic set specially developed for the species *Artemia salina*, with which brine shrimp - one of the smallest crustacean species living in salt water in the world - can be bred and observed.

Caution. Not suitable for children under 36 months!

- Recommended age: from 8 years
- Number of players: from 1 player
- Contents: Aquarium, brine shrimp eggs, salt mixture and nutrients, plastic measuring cup, plastic measuring cup with closure, pipette, spoon-shaped spatula, instruction booklet
