9,67 EUR

Item no.: 379880
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

For neat and safe storage of all miniatures and game material in the "Marvel United" basic game box from CMON. You take on the role of a Marvel hero with the aim of putting a stop to the villains Taskmaster, Ultron and Red Skull. Write your own exciting story, skilfully use your skills to save the innocent and beat up the bad guys. We have included this Feldherr foam set in our range so that you always have your playing cards and figures organised and ready to play. Since we take care of the protection and organisation in the box for you, you can concentrate fully on your heroic deeds. - The set fits exactly into the original game box of the "Marvel United" base game from CMON. - It offers you space for all 10 miniatures, cards and tokens from the box. - All your cards also fit with sleeves. - Place the 3 villain boards, the mission board, the game instructions and the 8 locations on the foam cover. Imagine Iron Man can't save the universe because he's looking for the individual parts of his armour, or the Hulk can't break anything because he's lost his trousers. With its 10 miniatures, 144 cards, 167 markers and the rest of the game material, it can quickly become confusing in the game box and significantly spoil the fun of the game. To prevent this from happening, there is this Feldherr foam set for your Marvel United base game box. The set contains: - 1 foam insert for miniatures and accessories (EYMEZE060BO) - 1 foam cover. The ten miniatures are safely stored in the foam insert. Whether hero or villain, giant Hulk or dashing Taskmaster, there is a suitable compartment for every figure. The customised compartments reliably protect the detailed miniatures from damage during transport. The customised cut also prevents them from sliding around or bumping into each other. Once you have painted your miniatures, you can be sure that the colours are protected from abrasion and annoying scratches. The two large compartments are used to store your playing cards. Of course, your playing cards also fit into the generously sized card compartments with sleeves. The large number of tokens and the rogue progress marker can be sorted by type and stored in the 7 smaller compartments. The foam lid supplied closes the whole thing so that the miniatures are securely packed all round and nothing can knock against the lid of the box during transport. Place the game instructions, the 8 locations, the mission plan and the three rogue tableaux on the cover. Now put the lid on and off. To play, simply open the lid and take it out. - The foam insert has the following dimensions: 250 mm x 250 mm x 60 mm total height (50 mm usable height + 10 mm foam base) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
