from **34,78 EUR**

Item no.: 379725
shipping weight: 0.40 kg
Manufacturer: Feldherr

Product Description

Supplementary foam set to protect and neatly store all 354 units in the original game box. The revolution ended the rule of the intergalactic Lazax Empire and a new age of freedom began. Now, after 3000 years of inconclusive Twilight Wars and stagnation, the galaxy is restless and the peoples are once again striving for power and control. Whether you are relying on military strength, diplomatic dexterity or economic influence, two things are crucial: overview and organisation. With this complementary Feldherr foam set for the board game box you get both, and the protection of your units on top. The set fits exactly into the original board game box of the 4th edition of "Twilight Imperium" from FFG. Provides protection and organisation for all 354 plastic units of the 4th edition base game. Is placed on the plastic inlay of the original box. The lid of the board game box therefore protrudes approx. 8 to 9 cm. You can neatly store the 350+ units on a total of three foam inserts. You simply place the inserts on the original plastic inlay of the box, in which the remaining game materials, such as cards, markers and system boards, are sorted. Each foam insert has 122 compartments individually tailored to the miniatures to ensure that each figure is securely packed. Two factions fit on each insert, clearly separated from each other. From the suns of war to the battleships to the infantry - every plastic figure is securely packed in foam all round. Precisely fitting compartments ensure that the miniatures do not slide around or bump into each other, even when travelling. This not only protects the fine parts from damage, but also protects the colours of painted figures from abrasion and scratches. The set is rounded off with the two foam lids supplied. This keeps everything in its place, even if the box is turned upside down during transport. This keeps miniatures and game accessories neatly and safely stowed away. Everything is quickly to hand, you save time and nerves when setting up the game and you have more time to take the Imperial Throne.

Details- chlorine-free and acid-free- Made in Germany Technical details- Dimensions: 425 mm x 285 mm x 35 mm Material- high-quality, fine-pored foam
