from **28,85 EUR**

Item no.: 379510
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

Store all miniatures and accessories from the base game neatly and safely in the original game box with this insert - Includes Flex Cross Band green. Blood Bowl is entering its second season and it will be tougher, bigger and, above all, more brutal than ever before. To prove this, the noble Bögenhafen Barons and the cold-blooded, green-skinned Black Orcs are opening this season. What remains the same, however, is that there is once again a magnificent starter set, filled to the brim with everything you need for wonderfully brutal games. So that the broken bones are limited to the playing field and you can always keep an overview, we've provided you with this Feldherr foam set to fit your board game box. - The set fits exactly into the original board game box for "Blood Bowl: Edition Second Season" from GamesWorkshop. - Provides space for all 28 Imperial Nobility and Black Orcs player miniatures, as well as the rest of the base game accessories. - Larger game components - the game board, the two reserve benches and the rulebook - can be placed on the foam lid of the flat insert (BWMFAM045BO). - The lid of the board game box protrudes approx. 3 cm. - The Flex Cross Band size L, also included in the set, provides more stability during storage and transport. The set consists of: - 1 foam insert for the Black Orcs miniatures (FMMFAL085BO) - 1 foam insert for the Imperial Nobility miniatures and game material (BWMFAM045BO) - 2 foam lids - 1 grid foam mat to fill the compartments for the goblins (HS030RS) - 1 Flex Cross Band green - size L Two foam inserts provide protection and organisation in the game box. The narrow, high insert takes care of the Black Orcs. A total of 16 compartments are available for the miniatures. From Varag Ghoul Chewer to Goblin Bruiser Lineman, each Thunder Valley Greenskins player miniature is allocated its own customised compartment. There are also two compartments for the two team markers. To prevent the goblins and markers from sinking helplessly into the foam, you can fill the round compartments for the small miniatures with pieces from the grid insert, which is also included in the scope of delivery. Your models lie securely in their customised compartments made of soft foam, in any position and also during transport of the box. Filigree details are just as reliably protected from damage as the colours of painted miniatures. Insert number two holds the Imperial Nobility team, the two referees and still has room for accessories. 14 compartments hold the player miniatures of the Bögenhafen Barons, two further compartments hold the two team markers. This leaves two compartments for the two umpires, a compartment for the additional balls and team coins, as well as a large compartment for storing the dice. The three templates are placed in the long compartment. Once all the miniatures have been sorted, cover the flat insert with the foam cover provided. Place the playing field, the reserve benches and the rulebook on top. Now just place the large foam cover over both mats, put the lid on and everything is packed. To ensure a stable, transportable fit of the lid despite the protrusion of approx. 3 cm, the set also includes a Feldherr Flex Cross Band green (size L). The foam inserts have the following dimensions: - FMMFAL085BO: 285 mm x 120 mm x 85 mm total height (75 mm usable height + 10 mm base) - BWMFAM045BO: 305 mm x 285 mm x 45 mm total height (35 mm usable height + 10 mm base) - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free
