## AT14SET - Foam set for Warhammer Quest: The Cursed City

from **22,93 EUR**

Item no.: 379731  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Store all 60 Citadel figures safely in the original game box - including Flex Cross Band blue. Whether this colourful troop of heroes was really aware of the horrors, creatures and, above all, the cruel vampire lord that awaited them in Ulfenkarn is open to question. But what can you do when fame, honour and treasure are calling? With this Feldherr foam set, you can ensure that Jelsen Darrock, Dagnai Holdenstock, Emelda Braskov and the other death-defying heroes arrive unscathed in the cursed city. The set fits exactly into the original board game box of the "Warhammer Quest: The Cursed City" base game from GamesWorkshop. It offers space for all 60 miniatures and the complete game accessories of the base game. Two foam inserts protect the miniatures. There is enough space to store the game material next to the small foam insert. An organiser for sorting the small accessories is available separately (ORG051). The lid of the board game box protrudes approx. 5 cm. The Flex Cross Band size L, also included in the set, provides more stability during storage and transport. Whether Vargskyr, Direbat or Tombstone - each miniature has its own compartment on the two Feldherr foam inserts. From the terrifying Brutogg Corpse-Eater to the Deadwalker Zombies and the Blood Rats, all hero, enemy and object models have their own customised compartment. The precise cut helps with sorting and also ensures that nothing slips around during transport. The many intricate details of the miniatures are thus reliably protected from damage. Once you have painted your models, you can be sure that the colours are still intact even after transport. The small foam insert for the hero miniatures lies on top of the large insert that fills the box. Separated by a foam lid, you can place the larger cardboard parts (game board segments, Ulfenkarn envelope, landing site and Aholort) here. The rest of the game material is placed on top of this. There is an empty compartment on each of the two foam inserts where you can store game material such as dice and markers. Once all the pieces have been sorted, place the second foam lid on the small insert so that the models are also protected all around. To ensure that the lid is stable and transportable despite the 5 cm overhang, the set also includes a blue Feldherr Flex Cross Band (size L). The set consists of: - 1 foam insert for enemy models, gravestones, marker miniatures plus accessories (ATMFCW042BO) - 1 foam insert for hero and enemy models plus accessories (GBMFCX070BO) - 2 foam lids - 1 Feldherr Flex Cross Band blue (size L) The foam inserts have the following dimensions: - ATMFCW042BO: 425 mm x 285 mm x 42 mm total height (32 mm usable height + 10 mm foam base) - GBMFCX070BO: 285 mm x 185 mm x 70 mm total height (60 mm usable height + 10 mm foam base) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
