### **Product Description**

2 DSLB150 storage boxes filled to the brim with 14 foam inserts for more than 260 zombicide miniatures plus game material. The medieval zombie hunt began with Black Plague and now continues just as fantastically with Zombicide: Green Horde. To make matters worse, the plague has now also infected the local orcs, which presents the survivors with a whole new set of problems. These green zombies controlled by necromancers are not only bigger and stronger than humans and therefore strike twice as hard, they also like to appear in hordes. But it's not just undead orcs that lurk behind the hedges. This instalment of the Zombicide series once again features a wonderful variety of miniatures. With over 260 figures plus game material, it's not always easy to keep track of everything. Fortunately, we have once again thought about how you can store your Zombicide collection neatly and safely so that no heads get lost outside the playing field. The set consists of: - 2 DSLB150 storage boxes - 1 full-size foam insert especially for Necromantic + Feral Dragon and 4 miniatures (FSMEEC110BO) - 2 full-size foam inserts with 34 compartments each for miniatures (FSBR040BO) - 1 full-size foam inlay with 50 compartments each for miniatures (FSEB035BO) - 1 full-size foam inlay with 36 compartments each for miniatures (FS035BO) - 2 full-size foam inlays for tiles, tokens and cards (FS0501031BO) - 1 full-size foam inlay with 25 compartments for miniatures (FSLQ035BO) - 1 full-size foam inlay with 16 compartments for miniatures and 6 dashboards (FSFG055BO) - 2 half-size foam inlays with 15 compartments each for miniatures (HSMEDO065BO) - 2 half-Size Schaumstoffeinlagen mit jeweils 16 Fächern für Miniaturen (HS035BF05BO) - 1 Half-Size Schaumstoffeinlage mit 7 Fächern für Miniaturen (HSLZ060BO) - 1 Half-Size Schaumstoffdeckel (10 mm Höhe) - 4 Full-Size Schaumstoffdeckel (4 mm Höhe) 12 passgenaue Schaumstoffeinlagen sorgen dafür, that all Walkers, Runners, Fatties, Necromancers, Abominations and of course the Survivors are in the best of hands. From Finarton the Giant to the furry Abominabunny, there is a suitable compartment for every single miniature. Your figures won't slide around and, surrounded by soft foam, are protected from damage at all times. The huge wings of the Necromancer Dragon or the sharp claws of the Swamp Lurker are just as safe here as the swords and lances of your heroes. 2 individual inserts with special compartments for cards (with and without sleeves), dice, tiles and tokens help you to keep track of your game material at all times. Trackers, counters and equipment cards are therefore quickly to hand and the time and nerves you save on setting up the game can be invested in the zombie hunt instead. The 14 foam mats provide space for figures and game material from the following boxes from the Zombicide: Green Horde Kickstarter campaign: - Zombicide: Green Horde Core Box - Exclusive Feral Dragon Pack - All Unlocked Stretch Goals - Friends and Foes - No Rest for the Wicked - Paul Bonner Box - Adrian Smith Box - Ultimate Survivors - Rat King & Swamp Troll - Fatty Bursters - Deadeye Walkers - Green Custom Dice - Green Horde Extra Tiles Pack Additional foam inserts are required for these optional buys: - 3D Plastic Obstacles - 3D Hedges - 3D Doors - Plastic Token Pack - Massive Darkness Crossover The storage boxes made of coated, double-walled cardboard are not only lightweight, but also particularly robust and therefore ideal for storing the miniatures and foam mats safely and protected from dust.
