Product Description

For safe storage of the 34 miniatures and all the accessories from the base game in the original game box. Use your powers and the spells provided by the Grimoire to make your way through the Lodge of the Black Rose. In the end, only one will be rewarded with the title of Grand Master and the power of the Artifact of the Black Rose. A thrilling game with wonderfully detailed miniatures. And because there is unfortunately no protective spell for them, we have the foam set for your "Black Rose Wars" board game box here. The set fits exactly into the original board game box of the "Black Rose Wars" base game from Ludus Magnus Studio. Offers space for all 34 miniatures and the complete game accessories of the base box. The lid of the board game box protrudes approx. 1 cm. The upper, 85 mm high insert has space for the large Evocations. The three Malacoda, just like the Cerbero and the Bone Knights, have their own customised compartments. This keeps the finely detailed miniatures safely in place, even when travelling. A hexagonal compartment in the centre is provided for the hexagonal tiles and two card compartments for the small cards (e.g. Evocation or Event Cards). The compartments have finger-wide cut-outs to make it easier to remove the stacks and are of course also suitable for cards with sleeves. The remaining Evocation miniatures are stored on the second mat. Here, too, each figure is completely surrounded by foam. This means that even the roughest transport cannot harm the delicate parts. If you paint your miniatures, you can also make sure that the colours are protected from scratches and abrasion. The tokens and rose pins are stored in the other compartments. Finally, the last insert accommodates your Mages in four miniature-sized compartments. Four large compartments offer enough space to neatly store all the large cards, such as the Spell Cards, even with sleeves. Tokens and small cards can also be organised here. A matching foam lid completes the all-round supply of your basic game box. The cover holds the larger cardboard components - the Power and Event Boards, the Mage's Sheets, Reference Cards and the booklets. This ensures that all miniatures are securely packed, the game material is neatly stowed away and the contents of your box are optimally protected at all times.
