Product Description

So that you don't go crazy organising your game materials, we have put together a foam set for the "Deep Madness" base game, which you can use to organise and reliably protect miniatures, cards and the small accessories. The set fits exactly into the original "Deep Madness" board game box from Diemension Games. Suitable for all 66 miniatures and all tokens, markers, Spawn Cards, Room Cards, Activation Cards, Consciousness Cards, Madness Cards, Scenario Cards, Drowning Dials, Locked Hatch Standees and Plastic Stands, dice and Devouring Track Blocks. The lid of the board game box protrudes approx. 4 cm. There are customised compartments for the Bathophobia, Madness Within, Substance and Mind Eaters miniatures. This provides the fantastic figures with ultimate protection against damage - delicate parts remain intact and the colour applied to painted models is retained. The set has a total of five compartments for the cards. The card compartments have finger-thick cut-outs for easy removal. Place the dials in the two larger, circular compartments. You can sort all other miniatures and small accessories into the other compartments as you wish. Once you have stowed everything away, place the foam lid on the set so that nothing can fall out during transport. Place the larger game components - rulebook, room tiles, rules reference cards, monster cards, investigator cards - either under the set in the board game box or on top of the set. Then close the lid and you're ready to go.
