

Item no.: 376626

ESD ED 64/42 HG - DSEB415ESD Euro container / Euro box with hinged lid

from **47,75 EUR**

Item no.: 376626
shipping weight: 4.10 kg
Manufacturer: Feldherr

Product Description

Suitable for all Feldherr double-size, full-size and half-size foams up to 415 mm high. Double-size, full-size and half-size foam inserts fit into the Euro containers. Two half-size inserts (275 mm x 172 mm) correspond to the base area of one full-size insert (345 mm x 275 mm). Two full-size inserts (345 mm x 275 mm) correspond to the base area of a double-size insert (550 mm x 345 mm). The size can be recognised by the first two letters of the article number (HS = half-size, FS = full-size, DS = double-size). The ESD Euro container with hinged lid from AUER Packaging offers additional protection for the contents. The lid and hinges are made of the same antistatic material as the container. Electrostatic charges are prevented and existing charges are reliably dissipated. Attention! Not suitable for children under 36 months.

Details- Can also be stacked with lid- Adapted to Euro dimensions- Closed handle holes- Sturdy hinges- Particularly robust
Technical data- External dimensions: 600 mm x 400 mm x 435 mm- Internal dimensions: 570 mm x 370 mm x 415 mm- Weight: 4.15 kg- Capacity: 88 litres
