Product Description

For safe storage of the Agent Pledges game materials in the original game box. All hell is breaking loose in the board game universe - the legendary Hellboy is up to mischief! To ensure that your fabulous miniatures and accessories are not damaged, we have created a foam set for the Kickstarter board game box - so your game materials are always clearly organised and reliably protected from damage. - The set fits exactly into the original Kickstarter "Hellboy: The Board Game" board game box - Provides space for the miniatures of the basic game, the miniatures of the "Conqueror Worm Expansion", the miniatures of the "BPRD Archives Expansion", the "Kickstarter Exclusive Hellboy", all "Bonus Minions" miniatures and all Stretch Goal miniatures (with the exception of the 3D terrain miniatures). There is also space for all tokens, dice and (sleeved) cards (except Core Agent cards) from the "Agent Pledge". - The lid of the board game box protrudes approx. 11 cm. The set contains: - 1 foam insert with 32 compartments for miniatures, dice, (sleeved) BPRD cards, (sleeved) cards and tokens from the base game (BGMENS070BO) - 1 foam insert with 32 compartments for Beasts and Monsters miniatures and (sleeved) BPRD cards (BGMENV045BO) - 1 foam insert with 47 compartments for smaller Stretch Goal miniatures, dice and (sleeved) cards (BGMENU055BO) - 1 foam insert with 42 compartments for Conqueror Worm, St. Leonard's Worm, Kriegaffe, Nazi Troopers and other miniatures (BGMEN085BO) - 1 matching foam lid. The first insert with 32 compartments allows you to organise and safely store the miniatures from the basic game. The fine-pored foam reliably protects your heroes, bosses and Minions from damage - the arms of the Tentacle Monster and the claws of the Giant Frog Monster remain undamaged, and the colour applied to painted miniatures does not scratch. The tray also offers space for dice, action cubes, tokens, (sleeved) cards (Encounter, Requisition, Enemy Deck, Deck of Doom) and (sleeved) BPRD cards. You can store the 30 Beasts and Monsters miniatures in the second tray with 32 compartments. In addition, two compartments remain free - one compartment for (sleeved) BPRD cards, one long compartment for free allocation. The Kickstarter Exclusive Hellboy and smaller Stretch Goal models such as Hecate miniature and Herman von Klempf can be sorted into the 47-compartment tray. In addition, there are two compartments for smaller (sleeved) cards, one compartment for larger (sleeved) cards and three small compartments for dice, for example. Finally, you can store the large models Conqueror Worm, St. Leonard's Worm, Kriegaffe as well as all Nazi Troopers and other smaller miniatures such as Roger + Lobster Johnson Target Priority Busts safely and neatly in the tray with 42 compartments. Once you have sorted everything, place the foam lid on the set so that nothing can fall out of the top tray. Place the larger game components - rulebook, game tiles, HQ board, Core Agent cards - either under the foam set in the game box or on top of the foam set. The foam inserts have the following dimensions: - BGMENS070BO: 350 mm x 300 mm x 70 mm total height (60 mm usable height + 10 mm foam base) - BGMENV045BO: 350 mm x 300 mm x 45 mm total height (35 mm usable height + 10 mm foam base) - BGMENU055BO: 350 mm x 300 mm x 55 mm total height (45 mm usable height + 10 mm foam base) - BGMEN085BO: 350 mm x 300 mm x 85 mm total height (85 mm usable height + 10 mm foam base) - fine-pored foam - Made in Germany - chlorine-free and acid-free
