### Product Description

Specially designed foam inserts for the Conan Kickstarter Barbarian or King Pledge. Two inserts each fit exactly into the original Conan board game box and the Stretch Goals box. All miniatures, cards in sleeves and tokens from the Kings Pledge are very well protected in the foam inserts. There are also 6 compartments for additional miniatures, so you can easily store the miniatures from the Black Dragons expansion, for example. For the Kickstarter "EXCLUSIVE ADD-ONS" we recommend AYG045BO. When the foam sets, game boards and rulebooks are placed in the board game boxes, the lids protrude slightly.
