### Product Description

Specially designed foam inserts for the Conan board game by Monolith Board Games LLC. The inserts fit exactly into the original Conan board game boxes. All miniatures, cards in sleeves and tokens from the original board game box are very well protected in the foam inserts. There are also over 30 compartments for additional miniatures, so the miniatures from the Kings Pledge, for example, can be easily accommodated. We recommend AY03Set for the Kickstarter "Stretch-Goals". When the foam set, the game board and the rulebooks are in the board game box, the lid protrudes slightly. The 60 mm foam insert for Conan (art.No. AYG060BO) offer:- 52 compartments for miniatures such as archers, heroes or pirates.- 3 compartments for larger monsters- 3 compartments for cards in sleeves, tokens and dice- 1 compartment for card parts of the units
