Product Description

Welcome back to Hyboria. With the Feldherr foam set, the miniatures and game material from the Adventure Mode expansion will stay with you for a long time. Thanks to the Kickstarter campaign, you can relive your "Conan: The Conqueror" game with the Adventure Mode expansion. You can fight with the enemy, pursue them, destroy them and enjoy the screaming. The expansion is not stingy with content. 55 detailed miniatures, new cards and tons of small-scale game material await you. To ensure that the conqueror becomes a king, we have the matching foam set for the original board game box of the expansion. Your miniatures are optimally protected and your game material is clearly organised. - The set fits into the original board game box of the Adventure Mode expansion for Conan: The Conqueror. - It offers space for all miniatures and for the entire game material of the expansion. - The double-sided game board and the character sheets rest on the foam cover. - The game cards fit into the card compartments with protective sleeves. - The cover of the board game box is made of foam. The lid of the board game box protrudes approx. 4 cm. - The set was designed for the standard contents of the Adventure Mode expansion and does not offer space for stretch goals from the Kickstarter campaign. The set includes: - 1 foam insert with 22 compartments for larger miniatures, cards and cardboard parts. - 1 foam insert with 49 compartments for miniatures and small game material. - 1 foam cover. Distribute your 55 miniatures over the two foam inserts. Place the larger miniatures in the insert with the 22 compartments. Thanks to the precise fit, the models will sit securely. Even if things get bumpy during transport, they stay in place. The soft, fine-pored foam protects delicate parts from breaking off and the colours of your painted models from scratches and paint abrasion. The two card compartments on the higher insert provide space for your equipment and spell cards. To make removing the cards as easy as possible, the compartments have finger-wide cut-outs. Of course, all cards with protective sleeves will fit. You can sort the rest of your game material, such as the Overlord Activation Tiles, baserings and the various tokens, into the enamoured compartments of the inserts. The foam lid supplied closes the whole thing off. To ensure that the miniatures are securely packed all round and nothing bumps against the lid of the box during transport, place it on the top insert as a cover. The double-sided game board and the character sheets rest on the foam lid. The set offers space for all the regular contents of the Adventure Mode expansion. There is no space for stretch goals from the Kickstarter campaign. - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
