from **32,57 EUR**

Item no.: 379623  
shipping weight: 0.30 kg  
Manufacturer: Feldherr

### Product Description

Bring order to your battle case! The Feldherr foam set for transporting game material also contains a raster foam insert for large miniatures such as tanks and monsters. This Feldherr foam set fits perfectly in your battle case. Replace the old foam with this contemporary foam insert, which protects your miniatures perfectly and ensures that your army arrives at the gaming table in one piece. The foam set offers you space for larger monsters and tanks. The grid foam insert with self-adhesive coating plus foam base can be processed without tools. The pre-punched grid allows you to design individual compartments for your miniatures. These are always 95 mm deep and even fit larger miniatures such as a Repulsor Executioner or Baneblade armour, Lauka Vai, Syll'Eske and various endless spells. We have also thought about game material such as cards, tokens and dice when compiling the set and have specifically packed 4 suitable inserts for them. However, there is also enough space for small units. The set consists of:- 4 GWA-size foam inserts, each with 7 compartments for game material such as cards, tokens and dice (CQMEID050BO)- 1 GWB-size grid foam insert for customising (CRMEML095S + CRBA010 base)- Foam cover Whether heavy or standard infantry, tanks or giant creatures, your miniatures will find enough space on the 5 large inserts. This ensures that your models remain safely in their compartment during transport. The soft foam not only protects the sensitive parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. Once your miniatures have been cared for and packed, we take care of your game material. The four inserts, each with seven compartments, are available for this purpose and help you to organise cards and game material such as tokens and dice. The card compartments have finger-thick recesses to make it easier for you to remove the stacks of cards. Of course, the cards also fit into the compartments with protective sleeves. The Feldherr foam inserts in the GWA-Size and GWB-Size formats are compatible with various GW transport cases with internal dimensions of 272 mm x 211 mm. These include, for example, the Citadel Crusade Case, the Citadel Battle Case, the Citadel Battle Case and the Warhammer 40,000 Carry Case. The 4 foam inserts CQMEID050BO have the dimensions 211 mm x 136 mm x 50 mm total height (40 mm usable height + 10 mm foam base). The grid foam insert CRMEML095S has the dimensions 272 mm x 211 mm x 95 mm total height.- High-quality, fine-pored foam- Chlorine-free and acid-free- Made in Germany
