### Product Description

Bring order to your battle case! Matching foam set for transporting and storing 28 miniatures on 40 mm bases + a raster foam insert for large miniatures such as tanks and monsters. This Feldherr foam set fits perfectly in your battle case. Replace the old foam with this contemporary foam insert, which protects your miniatures perfectly and ensures that your army arrives at the gaming table in one piece. The foam set offers you space for up to 28 miniatures on 40 mm bases in prefabricated compartments. It doesn't matter which GamesWorkshop game system they come from. The set works with infantry from Warhammer 40,000 or Age of Sigmar, as well as with figures from more exotic titles such as Blood Bowl, Warhammer Underworlds, or your teams from Kill Team. For larger monsters and tanks, we have added a grid foam insert plus base to the set. You can use the pre-punched grid to create individual compartments for your miniatures without the need for tools. These are always 95 mm deep and are suitable for larger miniatures such as a Repulsor Executioner or Baneblade armour, Lauka Vai, Syll'Esske and various endless spells. The set consists of: - 2 GWB-size foam inserts, each with 14 compartments for miniatures on a 40 mm base (CRMEMH050BO) - 1 GWB-size grid foam insert for customising (CRMEML095S + CRBA010 base) - Foam lid Whether heavy or standard infantry, your miniatures will find enough space on the 3 large inserts. This keeps your models safely in their compartment during transport. The soft foam not only protects the sensitive parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. The 28 prefabricated compartments of the CRMEMH050BO inlays have the following dimensions: - 8 compartments: 64 mm long x 50 mm wide x 40 mm deep - 8 compartments: 61 mm long x 44 mm wide x 40 mm deep - 4 compartments: 50 mm long x 43 mm wide x 40 mm deep - 4 compartments: 72 mm long x 36 mm wide x 40 mm deep - 4 compartments: 48 mm long x 36 mm wide x 40 mm deep The Feldherr foam inserts in the GWA-Size and GWB-Size formats are compatible with various GW transport cases with internal dimensions of 272 mm x 211 mm. These include, for example, the Citadel Crusade Case, the Citadel Battle Case, the Citadel Battle Case and the Warhammer 40,000 Carry Case. The 2 foam inserts CRMEMH050BO have the dimensions 272 mm x 211 mm x 50 mm total height (40 mm usable height + 10 mm foam base). The CRMEML095S raster foam insert has the dimensions 272 mm x 211 mm x 95 mm total height. - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
