DFNP020ESD - 338 mm x 238 mm x 20 mm ESD studded foam insert electrostatic

from **3,33 EUR**

Item no.: 376318
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

To protect electronic devices / components from electrostatic discharge and impact damage. Suitable for the lids of Euroboxes (AUER Packaging) with a base area of 400 mm x 300 mm. This ESD studded foam is used to protect sensitive electronic devices / components such as mobile phones, hard drives and smartphones during transport. The high-quality polyurethane (PU) foam reliably prevents electrostatic discharge. The corrugated shape also ensures that the foam adapts to the transported goods and thus has a cushioning effect in the event of falls. The ESD studded foam is cut to fit the lids of all Euroboxes (AUER Packaging) with a base area of 400 mm x 300 mm. - Dimensions: 338 mm x 238 mm x 20 mm high - Height measured from the base to the top of the shaft / stud - Electrostatic dissipative / ESD foam - Typical surface resistance $R_s = 10^{10}$ to 10^{11} Ohm - High-quality, fine-pored polyurethane (PU) foam - Made in Germany
