Product Description

Store all 16 miniatures together with the accessories neatly and safely in the original game box. In the Gothic-style mansion, billionaire Bruce Wayne lives his life as the heir to Wayne Enterprises, one of Gotham City's most important men. Underneath is the Batcave, the secret headquarters of Batman, Gotham's most important superhero. Batman and his allies protect the city from chaos, we take care of protecting the superheroes with this foam set. - The set fits exactly into the original board game box of the "Wayne Manor" expansion from the "Batman: Gotham City Chronicles" Kickstarter campaign by Monolith. - Provides space for all 16 Heroes and Allies miniatures and the complete game accessories of the "Wayne Manor" box, as well as for the 12 miniatures plus accessories from the "Versus Mode" expansion. - The lid of the board game box protrudes approx. 1-2 cm. The set includes: - 1 foam insert for miniatures and game material (DGMENP085BO) - 1 foam lid Batman and his allies are allotted customised compartments. Each figure, surrounded by soft foam, lies in its own compartment and is thus optimally protected against damage. And there's no mistaking which compartment the giant T-Rex goes in. The customised cut ensures that everything stays in place when travelling. Even the colours of painted figures are free from scratches after transport. There is also a compartment for the cards (also with sleeve) and one for the tiles. This leaves 3 compartments that you can use to sort the tokens and discs. Last but not least, the supplied foam cover ensures that the miniatures are protected from above and that nothing falls out of the insert. The hero sheets, the T-Rex tile, the elevator overlay, the boards and the booklet are placed on the foam cover. - The foam inlay has the following dimensions: 335 mm x 300 mm x 85 mm total height (75 mm usable height + 10 mm foam base) - high-quality, fine-pored foam - chlorine-free and acid-free - Made in Germany
