from **25,59 EUR**

Item no.: 379816  
shipping weight: 0.10 kg  
Manufacturer: Feldherr

### Product Description

This game has everything that lovers of classic 80s horror films could wish for. A lonely cabin in the woods, partying students, monsters, blood and lots of screaming. Choose a family of monsters and let the students have their fill. In addition to the entertaining setting and story, Monster Slaughter is particularly impressive with its loving artwork and many great miniatures. To spare you the horror of broken figure parts or lost tokens, we have the right foam set for you here. The insert with 26 compartments for the miniatures of the Party Guests, Surprise Visitors and the five-strong Crittlin family is located in the lower part of the game box, which also serves as the game board. The compartments are cut to fit the miniatures perfectly, ensuring that nothing slips around when travelling. Delicate parts are optimally protected from damage. If you paint your miniatures, you can be sure that the colours will remain intact even after transport. 4 compartments help you organise the tokens. Another compartment houses the dice and next to it is one for the colour cubes. The playing cards have a total of 4 card compartments. These are all equipped with finger-wide cut-outs for easier removal and are of course also suitable for cards with sleeves. The second foam insert with 30 compartments provides a home for the monster families. Here too, the compartments are customised to fit each individual miniature. You can sort the Victim markers into 3 compartments. The smaller 4 compartments are reserved for the doors and barricades. This ensures that all miniatures are safely stored. The matching foam cover ensures that the miniatures in the top tray are also protected all round. There is still enough space on the cover for the remaining cardboard parts (Internal Walls, Outdoor Ground Tiles and the Tool Shed Expansion), as well as for the scenario book and the rulebook.
