Product Description

Our double-size storage box 310 - filled to the brim with customised foam - offers you everything you need for safe storage of the Dark Souls "boss expansions". The heart of the set are the customised foam inserts, in which there are precisely cut compartments for all miniatures. The four royal figures of the Four Kings expansion are thus just as well protected against damage as the Great Grey Wolf Sif of the Darkroot expansion. The velvety-soft, fine-pored foam also ensures that the colours of painted models are not scratched. The inserts for the large Black Dragon Kalameet, Guardian Dragon and Gaping Dragon figures are in two parts. To protect them optimally, simply place the large figures (together with smaller miniatures if necessary) in the respective bases. Then place the cover with a precisely fitting recess over them. That's it. To ensure that you always have an overview when playing, many of the inlays have additional compartments for storing small game materials such as (sleeved) cards and dials. You can conveniently stack the inlays in the storage box. We also supply two foam lids - one as a height leveller and one as a cover so that nothing can fall out of the inserts. The storage box itself is made of double-walled, coated cardboard and is therefore lightweight yet extremely hard-wearing. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box. Due to the large overall height of the inserts, they protrude slightly over the edge of the box - but the lid can be closed easily.
