### Product Description

Arachnarok Spider, Skagrott the Loonking, Troggoth, Mangler Squigs - you can store everything safely in our double-size storage box for Gloomspite Gitz, which is filled to the brim with high-quality foam. The insert for Arachnarok Spider and Mangler Squigs is in two parts. The large compartment of the lower insert accommodates the manned Arachnarok. Thanks to the precise cut, the delicate figure remains in its softly padded place during transport. The delicate parts are optimally protected from damage and no grot falls off the platform. The colours of the coloured miniature are also protected from abrasion and scratches. In addition to the compartment for the spider, there is also a custom-fit compartment for mangler squigs. Once you have placed the two figures in the lower section of the insert, simply place the upper section, which has a custom-fit cut-out, on top. Now the towering battle platform of the Arachnarok Spider is protected and Mangler Squigs is covered. The two foam inserts for the large models each have 3 compartments. The compartments are ideal for miniatures such as Dankhold Troggoth (also as a boss variant), Gargants or Mangler Squigs. The two inserts for Squig Hoppers, Fanatics and Skagrott the Loonking each have 9 compartments of different sizes. Here you can store your elongated Gloomspite Gitz models safely and neatly.
