from **30,33 EUR**

Item no.: 380103
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Feldherr foam set made of high-quality foam to protect your figures. Includes a plastic card holder for sorting your cards. Since 1982, we have known that we are not alone in the universe. Aliens lead a shadowy existence in slums. But they have valuable technology that many people would like to relieve them of. The board game adaptation of the classic film thrills with 75 detailed miniatures and lots of game material. To ensure that the figures are not damaged during transport and that neither cards nor tokens are lost, we have the matching foam set for the original base game box. Here your figures are safe from scratches and snapping parts and you can organise all the cards and game material neatly. - The set fits into the original base game box of "District 9: The Boardgame." - It offers space for the entire game material of the base game. - The set was designed for the contents of the base game. The "5-6 Player Expansion" and the "Kickstarter Exclusives" must be transported separately. - The set contains three plastic card holders for standard cards and five plastic card holders for small format cards so that you can organise your cards neatly. - All cards also fit into the card holders with protective sleeves (max. external dimensions: 68 x 95 mm and 47 x 73 mm). - Rulebook, District Tiles, Centre District Tiles, Drop Ship Tile, Mech Profile, District Unrest Meter, Character Profiles, Puddi Pouch, Vehicle Dashboards, Card & Event Tracker, and the card holders are placed on the foam lid. - The lid of the box stands approx. 3 cm above. Whether character miniatures, giant mech, prawns or mercenaries, each figure has its own compartment. Thanks to the customised cut, the figures remain in place during transport. The soft foam provides reliable protection against damage such as snapped limbs or broken weapons. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. Sort your small game material such as tiles, stat trackers and faction rings into the free compartments of the foam inserts. The set comes with a total of 8 plastic card holders for your playing cards. Here you can organise your cards according to size. Of course, all cards with protective sleeves fit into the card compartments. Once you have placed the miniatures and the small game material in the foam insert, secure the insert with the foam lid provided. This prevents a miniature from falling off during transport or hitting the lid of the storage box. The rulebook, District Tiles, Centre District Tiles, Drop Ship Tile, Mech Profile, District Unrest Meter, Character Profiles, Puddi Pouch, Vehicle Dashboards, Card & Event Tracker and the card holders are stored on the foam lid. To ensure that the lid of the game box can close without tilting, the individual components should be evenly distributed on the foam. The set consists of: - 1 foam insert with 85 compartments for miniatures and small game material such as Mech Tiles, Faction Base Tiles, Outpost Tiles, Stat trackers and Faction Rings (DOMFHQ075BO) - 3 plastic card holders, each with 1 compartment for standard cards such as Deployable Ally Cards, Event Cards, District Boost Deployable Ally Cards, Unrest Reference Cards and Wikus Cards - 5 plastic card holders, each with 1 compartment for small-format cards such as District Boost Cards, Starting Boost Cards and Faction Cards - 1 foam cover The card holder for standard cards has the following dimensions: - Internal dimensions of the card compartment: 95 mm x 68 mm x 32 mm deep - External dimensions of the card holder: 72 mm x 99 mm x 34 mm high The card holder for small format cards has the following dimensions: - Internal dimensions of the card compartment: 74 mm x 49 mm x 32 mm deep - External dimensions of the card holder: 78 mm x 53 mm x 34 mm high - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. All products are provided unpainted. - thermoplastic - made from renewable resources - no assembly required - ready to play - 3D printed in Germany* - tested with premium card sleeves from GameGenic and Ultra Pro
