DS090RS - 90 mm double-size grid foam insert self-adhesive

from **18,84 EUR**

Item no.: 376533
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

With Feldherr grid foam, you can easily create customised foam inserts. The pre-cut grid offers a suitable solution for a variety of items, such as photo cases, bulky objects or miniatures. The raster foam is quick and easy to use. The foam can be easily adapted to the individual shape of the goods to be packaged by separating out individual foam blocks. The perforated foam can be removed by hand without tools. This 90 mm high double-size insert has a pre-cut grid of 20 mm x 20 mm. It is ideal for sensitive transport goods such as large tabletop miniatures, technical equipment and tools. The grid foam is fully perforated over its entire height. The base is available separately. To ensure that the packaged goods are optimally protected from below, we recommend using a 10 mm thick base, such as item DS010B. The insert is given additional stability by the all-round, approx. 25 mm wide edge.

Details- Made in Germany- Chlorine-free and acid-free
Technical details- Dimensions: 550 mm x 345 mm x 90 mm- Bulk density 23.0 kg/m³ (+/- 2.0)- 20 mm x 20 mm grid- 25 mm wide, all-round edge for additional stability
