from **171,47 EUR**

Item no.: 377451
shipping weight: 0.90 kg
Manufacturer: Feldherr

Product Description

With this set you can organise and safely store all the miniatures from Wave 1 & 2 of Kingdom Death: Monster 1.5 + 1.6. The miniatures from Kingdom Death: Monster 1.5 + 1.6 are some of the most unusual and crazy in the entire board game universe. Of course, exclusive models such as Phoenix, Sunstalker or Dragon King are also very valuable - and in a few years may even be a small treasure. So our recommendation: guard your monsters like the apple of your eye! With our complete set for KDM 1.6 Wave 1 & 2, we offer you a customised solution for storing the basic game, the 1.6 Update Pack and all twelve Wave 2 expansions. The inlays for the large Phoenix, Spidicules, Sunstalker and Dragon King miniatures are in two parts. They each consist of a lower tray with a base and an upper tray without a base. As soon as you have placed the models in the lower inserts, place the upper, precisely cut inserts on top. Your large monsters are thus well packed all round. Creates order: All monsters from Wave 1 & 2 can be stored in 16 high-quality foam inserts. Large figures such as Spidicules and Phoenix have their own personalised inlays just for them. You can sort the many small and medium-sized models (and some pin-ups) into the other inlays as you wish. This means you always have Slenderman, Old Survivor, Kingsman & Co. in view. Makes it easier to set up the game: Thanks to the new overview, you can always find the figure you need. Your game setup is therefore done in no time at all. Provides comprehensive protection. In our fine-pored inlays, delicate models such as Spidicules and Phoenix are optimally protected from breakage. Parts break off. The spider's leg is not bent, the proud bird can still spread its magnificent wings the day after tomorrow. Reliably prevents scratches. If you have painted your models, our velvety soft foam is the best insurance against scratching or chipping paint. Your monsters will shine in the spotlight and remain in top condition for posterity. Enables space-saving storage: Our inlays are stackable and therefore easy to store. Once you've sorted the minis, put everything on the shelf - all traces of the game night are gone and everything is tidy again. The inlays for the large Phoenix, Spidicules, Sunstalker and Dragon King miniatures are in two parts. They each consist of a lower tray with a base and an upper tray without a base. As soon as you have placed the models in the lower inserts, place the upper, precisely cut inserts on top. Your big monsters are thus well wrapped all round.

Details- Made in Germany- Chlorine-free and acid-free
Technical details- Internal dimensions: approx. 620 mm x 400 mm x 340 mm height- External dimensions: approx. 635 mm x 410 mm x 350 mm height- Front compartment: 230 mm wide x 210 mm high- Overall dimensions: 550x345x620mm
