Product Description

This storage box is supplied without contents. It offers space for all Feldherr foam inserts in the sizes half-size, full-size and double-size up to a total height of 310 mm. The DSL310 storage box is made of coated, double-wall cardboard and is therefore very light and also particularly stable. The attachable lid reliably protects the contents from dust and other external influences. With the matching foam insert, miniatures, game material and all other goods can be safely stored - and conveniently transported with the two plastic-reinforced carrying handles on the sides. The box is delivered fully folded and is ready for immediate use. We recommend the Feldherr Transporter for more convenient transport of the storage box over longer distances. The box fits exactly into the bag.
