from **83,72 EUR**

Item no.: 377398
shipping weight: 0.90 kg
Manufacturer: Feldherr

Product Description

It all started with a Pikaku Pop and just never stopped. Ever since Green Arrow and Headless Ned Stark joined your Funko POP! collection, you've been looking for the right solution for storing and transporting your precious little collectibles. You're in luck, because here's the large Feldherr double-size storage box with matching foam inserts to protect your Funko POP! boxes. The double-size insert is divided into seven compartments of the same size. The insert offers space for a total of seven boxes. Each compartment is precisely cut to fit a Funko POP! figure and its packaging. The boxes are stored flat. This means that the display always faces upwards and you can admire and present your POP! collection in the insert. The soft foam protects your boxes from dents, scratches and other damage. This means you can not only store your figures well protected, but also transport them safely. The POPs stay mint and you remain their proud owner. The package is rounded off with the matching foam lid. This ensures that the boxes in the top insert are also protected from above. The DSL310 storage box is made of coated, double-wall cardboard and is therefore both very light and very sturdy. The attachable lid reliably protects your collection from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
