Product Description

Cthulhu Wars can come! We have the perfect solution to keep your monsters safe. With our transport solution for Cthulhu Wars, you can bring new order to your official board game box. The set is tailored to fit the box, but extends up to 6 cm beyond the edge of the box depending on the configuration. Please note: The set was designed for the box of the second version. The box of the first version is approx. 1 cm smaller, so the foam set sits a little tighter here. The three-part foam set protects all your miniatures perfectly. The logical arrangement of the game material also allows you to clearly organise your assortment. Additional compartments for markers, cards and dice allow you to use, store and transport your game effectively. An inlay was specially produced for the set for the Great Old Ones and Great Monsters. This was developed to save space so that all large figures fit into the foam inlay. The compartments have been customised to fit the figures. The shapes are neither too narrow nor too spacious. This makes it easier for you to sort and retrieve the figures. You will also find a compartment for the gates and a card slot in the inlay. A separate foam inlay has also been produced for the medium-sized monsters so that you always have an overview. All cultists and small monsters are placed in the third inlay. Each figure has a separate compartment. The rest of the game material can also be conveniently stowed away in it.
