from **30,33 EUR**

Item no.: 377394
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Storage & transport - The practical storage box including Feldherr double-size foam insert to protect your S scale models. Neatly stored, clearly presented and safely transported. Your models are safe with this Feldherr double-size foam insert for model railways in S gauge. The set consists of: - 1 Feldherr storage box DSLB075- 1 double-size foam insert with 3 bars for models in S gauge - horizontal (DS065A004)- 1 foam lid (DS010B) Three compartments, customised for horizontal storage of model railways in nominal size S, offer your wagons and locomotives reliable protection for storage and transport. Thanks to its horizontal position, the insert can also be used as a display for presenting your own model railway collection. Several trains and wagons can be stored next to each other in one compartment. We offer matching foam spacers (HS020A002) to prevent bumping into each other or unintentional coupling. The models are thus safely stored all round and permanently protected against damage and wear and tear such as scratches and chipping paint thanks to the high-quality foam. - Each of the 3 compartments is 510 mm long x 80 mm wide x 55 mm deep. - Suitable for models in nominal size / S gauge The set also includes the matching foam lid. This is then placed on the filled insert so that nothing can fall out or hit the lid of the box during transport. The insert is ideally stored in the Feldherr storage box DSLB075. The box is made of coated, double-walled cardboard. This makes it not only pleasantly light, but also particularly tear-resistant and stable. This means that the models can be stored safely and protected from dust and transported easily thanks to the flat, compact shape. Storage box dimensions: - Internal dimensions: approx. 550 mm x 345 mm x 75 mm - External dimensions: approx. 565 mm x 360 mm x 85 mm The double-size foam insert has the following dimensions: 550 mm x 345 mm x 65 mm total height (55 mm usable height + 10 mm foam base). - High-quality, fine-pored foam - Made in Germany - Chlorine-free and acid-free
