from **34,78 EUR**

Item no.: 379845
shipping weight: 0.30 kg
Manufacturer: Feldherr

Product Description

Have you managed to get your hands on New Zealand's most coveted export next to sheep's wool with GKR: Heavy Hitters? Congratulations! We wish you every success in wiping out your opponents and destroying skyscrapers. As you probably know, even killer robots need a breather after a battle. That's why we at Feldherr have created a customised foam set for GKR: Heavy Hitters. The set consists of two foam inserts, which are equipped with precisely fitting compartments in which the game components can be safely stored. This first insert has 20 compartments. 4 compartments are reserved for the large Heavy Hitter miniatures. A further twelve customised compartments can be used to safely store the support units of the four factions. There are also four large compartments for game materials such as playing cards, dice and tokens. The second insert has 11 compartments. Ten compartments are reserved for the buildings. There is also a further compartment for additional game components such as playing cards. The inlays are stackable and fit exactly into the original board game box - nothing slips, nothing wobbles! We also supply a foam lid, which ensures that the game components do not bounce against the box lid without protection. Finally, the dashboards, the achievement board, the game board and the rulebook are stored on the foam lid.
