Product Description

Set consisting of foam inserts to protect the miniatures and plastic token holders for sorting the game material in the original game box. Even in death you find no rest. You have been raised from the dead to put a bloody end to the false idols. As if life as an undead hero isn't hard enough, "Sword & Sorcery: The Old Chronicles" comes with a packed board game box. Countless tokens, tiles, books, cards and figures need to be neatly organised and stored. Fortunately, we have designed a matching Feldherr organiser set consisting of foam inserts and plastic token holders for the game. It ensures that all the game material and figures can be transported well organised and safely packed in the original board game box. - The set offers space for all miniatures and the corresponding game material from the "Sword & Sorcery: The Old Chronicles" base game. - It fits into the original board game box from "Sword & Sorcery: The Old Chronicles". - The foam inserts reliably protect the miniatures from damage. - Two plastic token holders help you to sort the game material. - All cards also fit with protective sleeves. All cards fit into the card compartments even with protective sleeves (max. dimensions of large cards with sleeves: 80 mm x 128, max. dimensions of small cards with sleeves: 49 mm x 75 mm). - The lid of the board game box protrudes approx. 4 cm. - Storybook ACT 1, Book of Secrets ACT 1, Rulebook, Reference Sheet, Notes Reference, Double-Sided Site Sheets, Hero Sheets and the Tiles are stored separately in the box. - transport and tilt-proof - vertical storage possible - "Ready to Use" - no assembly required

While you save the day, we take care of the safety of your miniatures and the order in your box. The plastic token holders and compartments in the foam inserts allow you to organise your game material neatly, while the foam inserts protect your miniatures from damage. This means your game material is always to hand and your miniatures are safe from damage. The set consists of: - 1 foam insert with 13 compartments for miniatures, dice, tokens, cardboard stands, soul gems and large cards. - 1 foam insert with 27 compartments for miniatures, bases and small-format cards. - 2 token holders, each with 9 compartments for tokens (Loot Token, Crown Token, Wound Token, Soul Token, Critical Token, Health/Incapacitating Condition Token and other tokens) Whether hero or boss monster, each miniature has a precisely fitting compartment in the two foam inserts. Thanks to these, the miniatures sit securely. Even if things get a little bumpy during transport, they do not slip and remain in place. The soft, fine-pored foam reliably protects your figures from damage. You don't need to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. The two foam inserts also have special card compartments in which you can store your playing cards. Equipped with finger-thick recesses, they make it easier for you to remove the individual stacks. Of course, your playing cards also fit into the card compartments with protective sleeves. Sort your large-format tokens such as the soul gems, cardboard stands and bases into the free compartments. The plastic token holders are provided for small game material such as loot or wound tokens. The large foam insert is packed into the box first and covered with the foam lid provided. Place the small foam insert and the tiles on top. Place the plastic token holders on the tiles. Finally, cover everything with the second foam lid. This protects your figures from all sides and prevents anything from falling out of the compartments during transport. Storybook ACT 1, Book of Secrets ACT 1, Rulebook, Reference Sheet, Notes Reference, Double-Sided Site Sheets and the Hero Sheets are placed on the lid. - High-quality, fine-pored foam- Chlorine-free and acid-free- Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic- no assembly required - ready to play- 3D printed in Germany
