

Item no.: 376364

DDMESG090ESD - ESD foam insert for SSD hard drives / mobile phones / smartphones

from **25,59 EUR**

Item no.: 376364
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

For safe and tidy storage of electronic devices / components - Offers high protection against electrostatic discharge. This electrostatically dissipative ESD foam inlay has 60 cut-outs for safe and tidy storage of electronic devices / electrical components such as solid state drives, single-board computers or smartphones. The foam insert offers space for smartphone models such as iPhone 14, iPhone 13 pro, Samsung Galaxy S22 and smartphones with similar dimensions. The high-quality polyurethane (PU) foam offers a high level of protection against electrostatic discharge and therefore ensures the safe transport of sensitive devices. A matching base is available as an option under item number DDBA020ESD. - Each of the 60 cut-outs is 70 mm long x 8 mm wide x 90 mm deep. The inlay is ideal for SSD hard drives (up to 2.5"), circuit boards or smartphones, for example. The foam inlay measures 360 mm x 260 mm x 90 mm high and is supplied without a cover/base. - Electrostatic dissipative / ESD foam, colour ESD pink - Typical surface resistance $R_s = 10^{10}$ to 10^{11} Ohm - High-quality, fine-pored polyurethane (PU) foam - Made in Germany
