DDMFCV120ESD - DDMFCV120 ESD foam insert for 3.5 inch hard drives / mobile phones / smartphones

from **28,11 EUR**

Item no.: 376366
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

For safe and tidy storage of electronic devices / 3.5 inch hard drives or circuit boards - Offers a high level of protection against electrostatic discharge. This electrostatically dissipative ESD foam inlay has 16 cut-outs for safe and tidy storage of electronic devices / electrical components in an upright position, such as 3.5 inch hard drives, mobile phones or smartphones. The foam insert offers space for smartphone models such as iPhone 14, iPhone 13 Pro Max, Samsung Galaxy S22+, Google Pixel 7 Pro, Samsung Galaxy Note 10 and smartphones with similar dimensions. The high-quality polyurethane (PU) foam offers a high level of protection against electrostatic discharge and therefore ensures the safe transport of sensitive devices. A matching base is available as an option under item number DDBA020ESD. - Each of the 16 cut-outs is 103 mm long x 27 mm wide x 120 mm deep. The inlay is ideal for hard drives in 3.5 inch format. The foam inlay measures 360 mm x 260 mm x 120 mm high and is supplied without a cover/base. - Electrostatic dissipative / ESD foam, ESD pink colour - Typical surface resistance $R_s = 10^{10}$ to 10^{11} Ohm - High-quality, fine-pored polyurethane (PU) foam - Made in Germany
